

Trillium Health Partners' Board of Directors announces Karli Farrow as President & CEO

Mississauga (September 15, 2022) - Today, Christine Magee, Board Chair of Trillium Health Partners (THP), announced that Karli Farrow has been appointed as the President & CEO of Trillium Health Partners, effective immediately.

“I am very pleased that Karli Farrow will continue to lead THP as the President & CEO. The Board of Directors and I have every confidence that, under Karli’s leadership, THP will continue to build on its foundation and passion for excellence while navigating the highly complex, ever-changing environment. She will lead THP well into the future and advance our mission to create a new kind of health care for a healthier community,” said Magee. “Her experience in leading system change, building strong teams, and forging successful partnerships, is needed to lead one of the largest community-based hospital systems in Canada through the transformation that the health care system is currently undergoing. Her focus on results, all while exemplifying incredible compassion for people, focus on equity and strength in community-building are all attributes that the Board was looking for.”

Over the course of her tenure at THP, Farrow held a variety of executive roles and successfully led key strategies in service of the hospital’s mission of *a new kind of health care for a healthier community*. Her leadership during the COVID-19 pandemic, a time of unprecedented uncertainty and strain in the health care system, ensured that THP remained stable and continued to provide high-quality, excellent care to over 1.7 million patients. Farrow’s leadership advanced THP’s infrastructure renewal projects to increase much-needed health care capacity for Mississauga’s growing community, resulting in the launch in *Trillium HealthWorks*, the largest health infrastructure renewal in Canada’s history.

Farrow is dedicated to ensuring THP delivers health care that prioritizes being equitable, inclusive, and accessible, above all. Her leadership extends into the broader community, region and province, including as the Co-Chair of the Mississauga Ontario Health Team Collaboration Council, a member of the Anti-Black Racism and Systemic Discrimination Collaborative within Peel Region and on the Hospitals of Ontario Pension Plan Board of Directors as a board observer.

Farrow’s tenure at THP began with playing a crucial role in overseeing one of the largest voluntary mergers of two acute care hospitals in Ontario – the Credit Valley Hospital and Trillium Health Centre. Farrow has since provided executive oversight of a variety of portfolios, including corporate and administrative services, patient care services and capital redevelopment. Farrow also served as THP’s Chief Operating Officer and Pandemic Command Lead, providing overall incident management leadership during the COVID-19 pandemic. Karli’s experience in both government and the private sector prior to joining THP have played an important role in her success at the operational level of health care.

About Trillium Health Partners

Trillium Health Partners is one of the largest community-based hospital systems in Canada. Comprised of Credit Valley Hospital, the Mississauga Hospital and the Queensway Health Centre, Trillium Health Partners serves the growing and diverse populations of Mississauga, West Toronto and surrounding communities. Trillium Health Partners is a teaching hospital affiliated with the University of Toronto and is an associate member of the Toronto Academic Health Science Network.
